"A wonderful week at camp! The teachers were so creative, thoughtful, and professional. The space was beautiful and inspiring, and I was so impressed with the quality and variety of work the students produced - truly magical!"
-Emily P.

Hello Friends!

Who's ready to think summer? We are! We are definitely ready and excited to share our summer line-up at Cloud 9 Workshop!

This summer we are celebrating 9 years of summer camps! Oh my! Our first year, we offered 2 camps. Fast forward 9 years and we're now offering 28 camps for ages 4 - adult! What's been our all-time favorite part? That's easy...YOU! 😊

If you're new to Cloud 9 Workshop, you might be wondering, Why choose us? **The answer is simple: experience, education, authenticity, and a good sense of humor.** We truly care about your child. With years of experience and extensive education, we know how to **teach children skills** and create engaging curriculum that inspires them to **express their ideas** and **bring their vision to life.** And, it's **FUN! So much FUN!** That's why they are running out to you after camp about to burst with excitement and eager to share what they've created and discovered in camp. It's also why they can't stop making when they get home or why, years later, their projects are still family favorites on full display at home.

Your kids are awesome and we can't wait to work with them in the studio this summer. This isn't AI talking, it's straight from my heart, goofiness and all ;) I might say this every year but I think **THIS will be our best camp season yet!**

Thank you, friends!

We look forward to seeing you in the studio this summer!

We'll build cars propelled by the wind, design boats that float, create prints from found gadgets and much more! Each day we'll measure, glue, tape, cut, rip, bend, staple and test our new ideas. Some ideas may work and others may require a trip back to the drawing board but no worries! Experimenting with gizmos and gadgets is fun!

Fanciful Fairy & Gnome Gardens

Enjoy and explore the whimsy of magical miniature worlds and build your own outdoor/indoor fairy garden using natural materials as well as re-purposed treasures.
