## Hello Friends!

Dreaming of summer days? We have been too! Our 2026 summer line-up is ready for you!

This year, Cloud 9 Workshop is celebrating 13 years and 10 summer camp seasons! Oh my! Our first year, we offered 2 camps. Fast forward 10 years and we're now offering 23 camps for ages 4 - adult! What's been our all-time favorite part? That's easy...YOU! 😊

If you're new to Cloud 9 Workshop, you might be wondering, Why choose us? **The answer is simple: experience, education, authenticity, and a good sense of humor.** We truly care about your child. With years of experience and extensive education, we know how to **teach children skills** and create engaging curriculum that inspires them to **express their ideas** and **bring their vision to life**. And, it's **FUN! So much FUN!** That's why they are running out to you after camp about to burst with excitement and eager to share what they've created and discovered in camp. It's also why they can't stop making when they get home or why, years later, their projects are still family favorites and reminders of happy summer days in the studio.

**Your kids are awesome** and we can't wait to work with them in the studio this summer. I might say this every year but I think **THIS will be our best camp season yet!**

Thank you, friends!

We look forward to seeing you in the studio this summer!

Kelcey Kalumbula  
Owner & Super Fun Art Teacher, Cloud 9 Workshop

We'll build cars propelled by the wind, design boats that float, create prints from found gadgets, and much more! Each day we'll measure, glue, tape, cut, rip, bend, staple, and test our new ideas. Some ideas may work and others may require a trip back to the drawing board but no worries! Experimenting with gizmos and gadgets is fun!

This program is for teens and tweens in grades 6-12 (completed) who enjoy art, crafts, and kids! Jr. Studio Assistants help guide, assist, and inspire children (grades K-5th) in the studio during summer camps. They also help prepare materials and clean-up from projects. When time and materials allow, Jr. Studio Assistants can make the projects and participate in the art experiences.

### SEWING CAMP NOTES

**New to sewing? No worries!** Sewing camp size is kept small and our curriculum is designed by experienced teachers for both beginner and intermediate skill levels. All camps provide an introduction and overview of machine sewing. Each camp will also teach additional techniques and skills specific to the projects being made. Camp projects listed can sometimes be modified or changed as the camp evolves. Our priority is the camper, not the stuff. We will make adjustments where needed along the way to make the experience awesome for all!
